Eligibility

1. Open to all:

Students, professionals, hobbyists, global participants

2. Must know basic programming

(C, C++, Golang, Python, Java, etc.)

3. Eager to learn, contribute, and collaborate

Program Phases & Expectations

Gofr
Summer of Code
2025

1

Registration

- Register between 2nd–14th June
- Only registered participants will move to the next stages

2

Opening Briefing

- Attend the kickoff session on 15th June: overview, expectations, team introductions

3

Training Phase (16–27 June)

- Access curated learning materials (GoFr architecture, Golang essentials, contribution guidelines)
- Participate in workshops (if announced), connect with your mentor for clarifications
- Complete training phase to qualify for swag and the coding phase

Program Phases & Expectations

2025

6

Results & Awards

All participants who register for the program get a **Certificate of Participation**.

Eligible contributors receive the **GoFr Swag Kit**.

Top three contributors (based on impact, quality, and consistency) win exclusive prizes and public recognition.

Rules

Gofr
Summer of Code
2025

-
- Respect deadlines**
 - Communicate actively on official channels**
 - Maintain professional, respectful collaboration**
 - Follow GoFr's code standards and contribution guidelines**
 - Prioritize learning and quality — no copy-paste or low-effort submissions**
 - Ask for help when stuck — mentors are here to guide you**
